Invitation

The Organisers have the pleasure to invite you to attend the 9th YSESM. Our main purpose is to provide a forum for young researchers and engineers, PhD students and students dealing with problems of experimental solid mechanics in different countries.

Scope

The Symposium concentrates on current work in all areas of experimental research and its application in solid mechanics.

The topic will particularly concern to

- conventional and advanced experimental methods in solid mechanics,
- measurements in material properties,
- measuring techniques, modern devices,
- computer assisted testing,
- relationship between experimental methods and numerical simulation,
- engineering design simulation,
- measurements in biomechanics,
- measurement techniques for micro- and nano-fields

IGF Summer school

The IGF Summer School will be held just before the Symposium, 5-7 July 2010. Participants registration for both events will enjoy a discounted fee. PhD students will receive 7 CFU for attending the Summer School. Further information at the IGF website:
